

Installation instructions

Step 1 – Login:

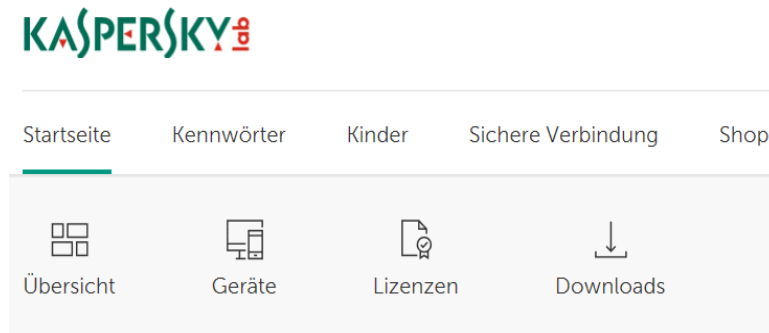

Log into your Kaspersky account at <https://my.kaspersky.com> or register a new account and follow the instructions.

(The following pictures are provided as an example. In this respect, they do not necessarily show the product you have purchased, which, however, will not lead to any change in the procedure.)

Step 2 – Navigation to the license area:

Click on "Licenses" in the navigation bar at the top, and you will see a box in the middle of the page with the message "Add activation code" (see picture).

Step 3 – Add activation code:

Enter your activation code and click the green "Add" button to add your subscription.

AKTIVIERUNGSCODE HINZUFÜGEN

- Was ist ein Aktivierungscode?
- Wo kann ich ihn finden?
- Die Gültigkeitsdauer Ihrer Lizenz beginnt sofort, sobald der Aktivierungscode hinzugefügt wird!

Achtung! Die hinzugefügten Aktivierungs-codes müssen gültig sein (nicht abgelaufen und nicht auf der schwarzen Liste).

Fügen Sie Ihren Aktivierungscode hier ein, um Ihre Lizenzen zu verwalten.

Step 4 – Download:

Now call up the "Devices" area and click on the "Protect new device" button. On the page that opens, click "Download" next to your product.

	Kaspersky Internet Security	3 Geräten verfügbar	DOWNLOAD
		Wichtig! Die Laufzeit der Lizenz für die Anwendung beginnt automatisch, wenn die Anwendung auf einem Gerät installiert wird. Details	Per E-Mail senden

Step 5 – Installation:

Now run the downloaded installation program named **startup.exe**.

(Please note that you may need to uninstall any previously installed/other security solutions. Other programs often leads to difficulties in activation and installation.)

Step 6 – Ready:

Congratulation! Your subscription has been activated.
Your computer is now protected.
